BASIC FASTENERS

Sew-on snaps and hooks & eyes are the most frequently used type of closures for closing & finishing garments.

Traditionally, fasteners were discreetly placed inside garments as hidden closures. In today's fashions, they can be used on the outside of garments as key elements of the design.

HOOKS & EYES hold finished edges together.

Traditional: Hooks with round or straight eyes. Use round eyes where two edges meet and straight eyes where two edges overlap.

Specialty: Wide & sturdy. Use on lapped waistbands of skirts & pants.

Coat: Large size for use on coats and jackets.

Covered: Thread-covered for use on fur and deep-pile fabrics.

Jumbo: Extra-large for bulkier fabrics like fleece and wool.

SEW-ON SNAPS hold overlapping edges together.

Traditional: Guide holes in socket and stud ensure perfect alignment.

Nylon: Clear, lightweight snaps blend with any color fabric.

Snap Tape: Small snaps on tape used for children's clothing, shirt closures, pillow & duvet covers.

MAGNETIC SNAPS secure opening on purses, bags or totes.

EYELETS & GROMMETS

The term eyelet and grommet are often used interchangeably. Eyelets and grommets are 1- or 2-piece round metal reinforcements for holes in fabric, plastic and paper. They can be either functional or decorative.

Use small eyelets for belts, drawstrings, laced closures, tote bags and decorative accents.

Use large eyelets and grommets for window treatments, shower curtains, duffel bags and tarps.

SIZES

Eyelets	Grommets
5/32" One-Piece	3/8" Two-Piece
1/4" Two-Piece	
7/16" Two-Piece	

The size indicates the inside diameter of the opening of the eyelet or grommet.
